OPERATION MANUAL

OPERATION MANUAL FOR TAXIMETER

The following are functions of operation keys on the meter console.

- F1** : This key is for child lock i.e. once the hire mode is on and the meter is working then by mistake if the stop key is pressed then the fare on the meter will not be changed. For releasing child lock the same key should be pressed again.
- VACANT** : When the driver Precess VACANT key the meter comes on FOR HIRE mode, this key is operated when the driver reaches destination & stops the waiting time, the printout is also received & the FORHIRE display gets ON.
- HIRED** : This key is operated when the passenger boards the taxi & the taximeter is engaged. The FORHIRE light goes off.
- STOP** : This key is operated when the trip comes to an end.
- F2** : This key is pressed to eject the paper by 10 mm, so that the paper comes out of the printer console. It is also for AC/NON AC Tariff.
- PRINTOUT:** Press STOP key & then press VACANT key to take a print.

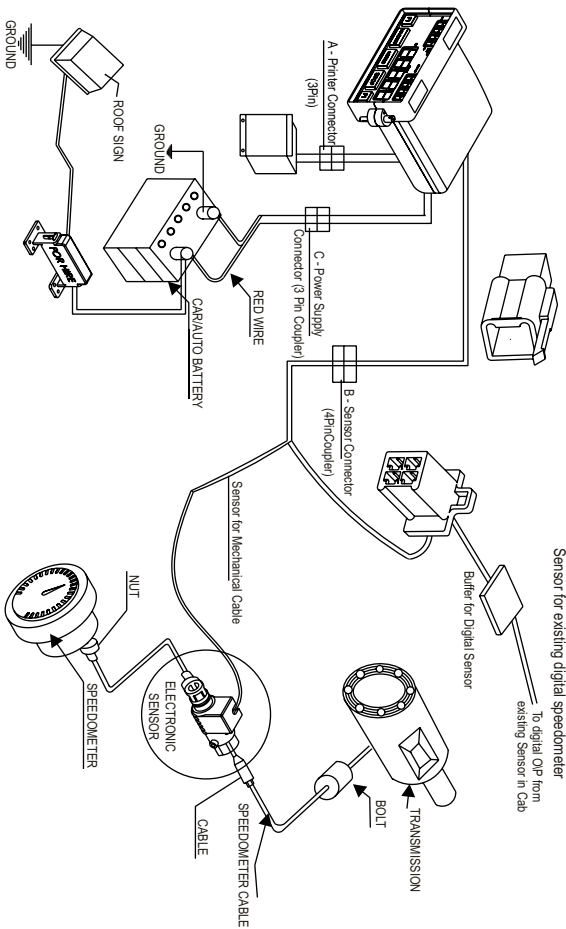

BUZZER

A buzzer sound is given at every paise drop to know that the meter is working.

DISPLAY

1. The first small display on top left portion of window shows the time when the vehicle is in running more and while waiting it shows the waiting time.
2. The second small display on top right portion shows distance traveled in kms.
3. The third big display shows whether the taxi is in FOR HIRE mode or shows the fare while in HIRED mode.
