

COVID-19 Rapid Test Kits

Manufactured by:

Humasis

Marketed by SANSUI Electronics Pvt. Ltd.

 = Human + Analysis

About Humasis

- Humasis strives to develop, manufacture, and market in-vitro diagnostics for the detection of cardiac marker, fertility hormone, infectious disease, tumor marker, and cotinine in rapid test for home and laboratory use.
- Since the establishment, Humasis continuously devoted to rapid test business and has made us the leading manufacturer in the field of In-vitro diagnostics.
- Based on endless R&D, they developed wide range of rapid tests for fertility, cardiac markers, infectious diseases, tumor markers to reach the needs the global market desires and various conditions of healthcare.
- As the increasing number of old ages, chronic diseases and new paradigm of patient-oriented care system arises, so Humasis applied New IT bio-technology to upgrades the quality to a whole new level of innovated care systems are rapidly.
- HUMASIS is certified with ISO13485 and GMP, which proves that all products are manufactured under strict quality control.

Humasis Products

1. Urinalysis equipment and systems
2. Immuno assay testing
3. Diagnostic rapid tests
 - a) Pregnancy Test (hCG)
 - b) Ovulation Test (Luteinizing hormone test)
 - c) Menopause Test (FSH Card)
 - d) Abnormal Pregnancy Test
 - e) Cardiac Triple Test
 - f) HBsAg Card
 - g) HIV Test
 - h) RSV Antigen Test
 - i) Dengue Test
 - j) **COVID-19 Test Kit**
4. Other equipment for immunochemistry and immunology

Humasis COVID-19 IgM / IgG
Rapid Test Device Kit

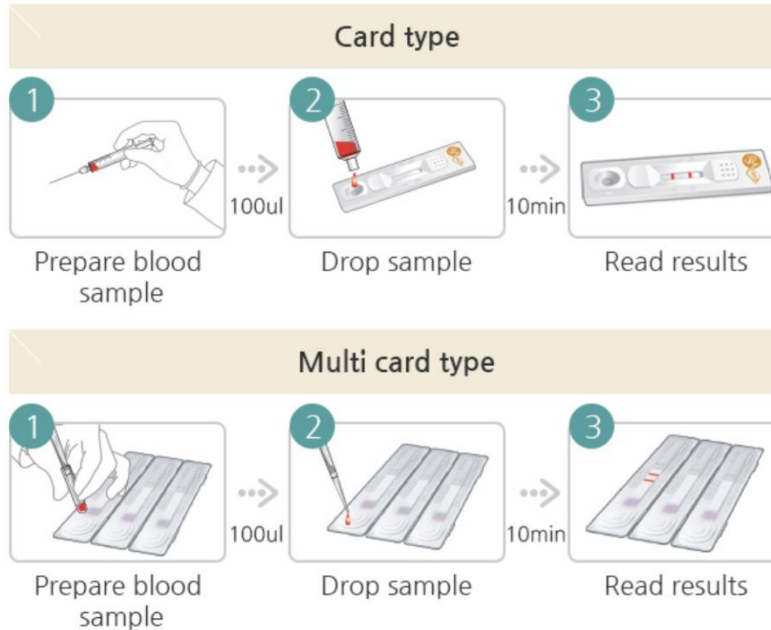

Humasis in-vitro diagnostic Procedure

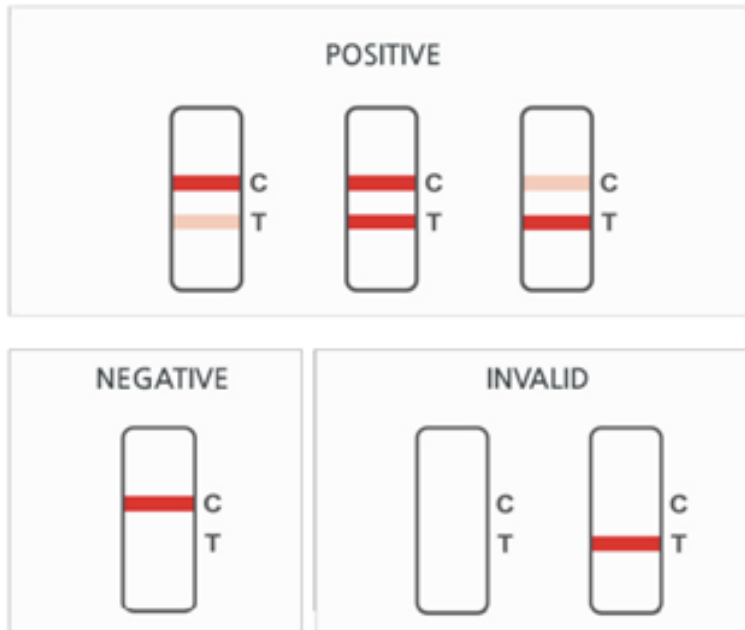

1. Applications:
 - Test for Disease i.e. **COVID-19**
2. Tested Parameter:
 - IgG, IgM
3. Sample Type:
 - serum, plasma, whole blood
4. Analysis Mode:
 - Immunochromatographic

Screen Asymptomatic carrier

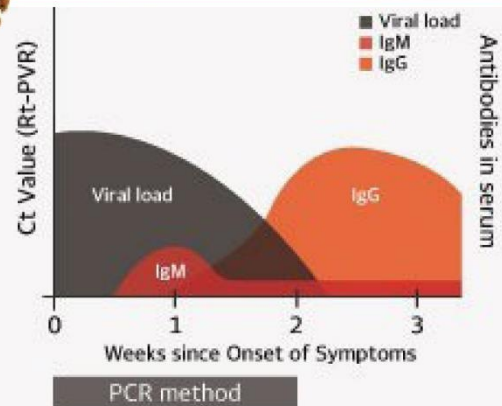

Humasis COVID-19 IgG/IgM Test

Extend diagnostic coverage from asymptomatic to convalescent phase of COVID-19.

- ✓ Rapid Testing for nCoV antibodies within 15 minutes.
- ✓ Available for Whole Blood, Serum or Plasma.
- ✓ No additional equipment required.

About Humasis COVID-19 IgM / IgG

Detection of COVID-19 IgM antibodies tends to indicate a recent exposure to COVID-19, whereas detection of COVID-19 IgG antibodies indicates a later stage of infection. Thus, this combined antibody test could also provide information on the stage of infection.

Humasis COVID-19 IgM / IgG Test Procedure

Humasis COVID-19 IgM/IgG Test is suitable for patients showing negative PCR result with mild pneumonia symptoms or have persisted pneumonia symptoms for more than 10 days.

Test Procedure

Do not read test results after 15 minutes. It may give false results. Discard the test device into the disposal bag after use.

Humasis COVID-19 IgM / IgG Interpretation

Interpretation

Negative

Positive

Invalid

✓ Positive results should be considered in conjunction with the clinical history and other data available to the physician.

Humasis Global Market

1. **Asia**

China, Georgia, Hong Kong, Japan, Korea, Kyrgyzstan, Mongolia, Pakistan, Philippines, Russia, Singapore, India, Indonesia, Kazakhstan, Malaysia, Thailand, Vietnam

2. **Middle East**

UAE, Iran, Syria, Yemen

3. **Europe**

Austria, Czech, England, France, Germany, Ireland, Latvia, Romania, Spain, Switzerland, Turkey

4. **Africa**

Gabon, Kenya, Myanmar, Nigeria, Sudan, Uganda

5. **South America**

Brazil, Ecuador, El Salvador, Guatemala, Paraguay, Peru, Senegal, Venezuela

6. **USA**

Patents Assigned to Humasis

1. Diagnose device for measuring the ratio of proteins with similar structure
 - a. Patent number: 8101369
 - b. Patent Filed: May 23, 2006
 - c. Patent Granted : January 24, 2012

2. Diagnostic device for distinguishing between normal and ectopic pregnancy and method for preparing the same
 - a. Patent number: 7332350
 - b. Patent Filed: February 10, 2003
 - c. Patent Granted : February 19, 2008

3. Diagnostic device for distinguishing between normal and ectopic pregnancy and method for preparing the same
 - a. Patent number: 20030153093
 - b. Patent Filed: February 10, 2003
 - c. Patent Granted : August 14, 2003

Humasis New Medical Testing Device Launchings and Visits - 2020

GMS participated in MMIDSP 2020

Mon 02 Mar 2020

GMS participated in EP Conference 2020

Mon 02 Mar 2020

BioMerieux visit to Pakistan

Fri 28 Feb 2020

GMS organized presentation on
CAPILLARY 3 OCTA

Wed 01 Jan 2020

STERIS visit to Pakistan

Fri 21 Feb 2020

GMS participated in Haemcon 2020

Mon 17 Feb 2020

GMS organizes Gala Dinner & Musical
Night

Thu 09 Jan 2020

GMS was Platinum sponsor of 2nd Intl.
Cytology Conference

Mon 23 Sep 2019

Humasis Medical Microbiology Events and Activities - 2020

MMIDSP 2020

Participating in

**17th Annual Conference of
Medical Microbiology & Infectious Diseases
Society of Pakistan**

"New Innovations in Microbiology and Infectious Diseases"

Medical Microbiology & Infectious Diseases Society of Pakistan

Pakistan Kidney & Liver Institute and Research Center

Shaukat Khanum Memorial Cancer Hospital and Research Centre

The Medical Microbiology & Infectious Diseases Society of Pakistan (MMIDSP) is organizing its 17th Annual Conference on 29th February, 1st March 2020 at The Pearl Continental, Lahore, Pakistan.

Closed February 29, 2020

Rhythm For Life 2020

*Pakistan Heart Rhythm Society Welcomes you for
" Rhythm For Life 2020 "*

1st Annual International Conference on Cardiac Electrophysiology at Armed Forces Institute of Cardiology & National Institute of Heart Diseases Rawalpindi.

28th February to 1st March 2020

17th Annual International Conference on Cardiac Electrophysiology at Armed Forces Institute of Cardiology & National Institute of Heart Diseases Rawalpindi

Closed February 28, 2020
